New Book: Modern Images Confirm Bible Predictions with Devastating Persuasive Power

Read the Predictions, View the Photos, You Decide - Seeing is Believing

FORETOLD - QUICKSHARE EDITION
Print - e-Book

The Bible foretold the future of more than a dozen nations, races and places over 25 centuries ago.

- Edom's lands "desolate forever".
 - Egypt cursed "forever lowly kingdom".
 - Tyre, seagoing superpower, reduced to a "fishing village".
- All as foretold - miracles captured on camera today.

Foretold - QuickShare Edition, an interactive e-Book, tests six of these predictions against the march of history, CIA field reports, ground photography, and NASA satellite imagery.

Foretold proves there is a God, He wrote the Bible, and empowers the believer to share the faith at a glance with devastating power.

The book, *Foretold*, rich with photographs, grabs your attention, captures the imagination and *proves beyond a reasonable doubt the Bible comes from the very Hand of God*. Seeing is Believing.

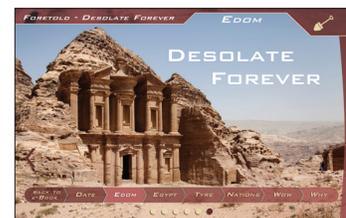

Author Bob Jacobus combines decades of Bible research with decades of media experience stretching from CBS, NBC, through Fortune 500 clients to craft a book that presents the answers to the most important questions of life - *Is there a God and did He write the Bible?* - Seeing is Believing.

INNOVATION - The eBook includes an *interactive app simulator* called *QuickShare*. The book allows the reader to dig deep into the evidence and images, but beyond the text, the e-Book includes an *app simulator* that commands attention at glance, persuades the skeptic in moments, and turns the casual reader into the *ultimate evangelist* that inspires and ends the debate.

"The research Bob has done for *Foretold* is fascinating, the findings throughout the entire project are an interesting and thought-provoking catalyst to sharing the gospel..."

JOSH WALSH

Co-executive Producer, *I Can Only Imagine*, Co-Producer, *I Still Believe*

“The value of a tool like Foretold should never be underestimated in our scientific age where people need to see things for themselves. This resource lets users empirically verify the truth that God has left in Scripture, and a history that points to Him!

The overwhelming prophetic evidence of God’s fingerprints in History is an important reminder that we should not be so skeptical about what His Word teaches. I highly recommend this powerful witnessing tool!”

DR. DAVID GEISLER

President, *Norm Geisler International Ministries*

“I think Foretold is desperately needed. There is no better way to draw eyes to this property than through professional, Hollywood CGI and Visual Effects and our team at CAMd is ready to pounce on this amazing concept and see it come to life!”

SCOTT SMITH

Academy Award Winning Visual FX Supervisor

“As one who reads in the Bible almost every day and also one who loves history, I find this book compelling and fascinating.

This book has the opportunity to convince many skeptics all for the good of the Kingdom. I pray for terrific distribution and many to have their faith challenged and confirmed.”

RON BLUE

Founding Director, *Kingdom Advisors*

Foretold - QuickShare Edition collects images from dozens of photographers shot on location in the dusty hot spots and war zones of the Middle East, NASA satellite images, and CIA field reports to prove the Scriptures are directly inspired by the very Hand of God. *Seeing is believing.*

Egypt was cursed to remain a lowly kingdom. The Philistines were damned to extinction. Edom would be desolate forever. Tyre shall be punished, foretold to go from seagoing superpower to fishing village. Ammon driven to desolation, but restored thereafter.

Predictions & prophets separated by hundreds of miles, recorded thousands of years ago, detailing millions of lives, all in one Book - the Holy Bible.

Foretold resurrects the publishing wildfire of Calvin (1539), Arminius (1600), Newton (1746), Keith (1823), and Davis (1931) by bringing this emphasis into the 21st century through a multi-channel platform. Successive generations rekindled this evidence every century, publishing hundreds of editions through written history, then hand drawn sketches, and finally black & white photos.

Today, we stand on the shoulders of these publishing giants, testing the predictions against the march of history and modern observation - all captured on camera in *Foretold - QuickShare Edition*.

More than a photo intensive 60 page e-book, *Foretold - QuickShare Edition* is the ultimate evangelism tool that includes the **QuickShare interactive presentation** - a built in App like experience to capture the imagination and deliver a eureka moment that ends the debate and gives birth to life changing faith. - *Quick to See, Quick to Share.*

Foretold - QuickShare Edition fully embraces the next generation of the digital book ecosystem with an intuitive UI and flexible interactivity to let the reader become an expert presenter in a matter of minutes.

- Edom shall be desolate forever
- Egypt is cursed to be a lowly kingdom
- Tyre shall go from sea going superpower to fishing village

- and more all captured on camera today

About the Author

Bob Jacobus began his career at CBS and NBC learning how to take complex ideas and distill them down into compelling media moments.

A new phase began in the late 1990s with the birth of Mission Media, a volunteer team Bob organized of more than thirty secular media professionals dedicated to creating advertising for the Church in the greater Philadelphia media market.

Concurrently, Bob organized a sister organization of over 200 local churches, spanning 40 evangelical denominations, to unite under one statement of faith to air evangelistic commercials on MTV, Q102, Comcast, etc.

In 2007, a family medical tragedy forced Bob back into the media world to serve Fortune 500 clients such as Bristol-Myers Squibb, Cigna, Chubb, victorious State & Federal political campaigns, and conservative clients in the Freedom movement.

Today, Foretold is the culmination of Bob's secular and sacred experience in condensing complex narratives and curating deep data to produce headlines that catch the eye and content that captures the imagination in seconds.

Key Points for Promotion:

Interview Questions (taken from foretold.com/press/)

- What is the Foretold, Seeing is Believing Concept?
- How can you say these are miracles captured on camera?
- When thinking of prophecy, we immediately think of fortune tellers. Predictions so vague, they could mean anything.
- What are your sources for information about these places?
- Weren't these predictions written after they came true? Essentially history dressed up like prophecy?
- How come we have never heard of this?
- So, why is this important?
